ABOUT ME

I am a competent **website designer and front end developer** with 9+ years of solid work experience designing sites for agency clients, online software front end development. I am a creative person who is able to produce websites from concept to launch. I have worked effectively both independently and as part of a team, and I am capable of being highly productive either way.

JOB EXPERIENCE

FRONT END DEVELOPER 2023 MARCH - PRESENT

Gyan Vitaranam Media Pvt Ltd - Cochin

- Designing a new **Responsive website or web application** for clients can be an exciting and challenging task. It requires a creative and technical approach to ensure that the project meets the needs of the client.
- Providing a high level of client support and respond to technical queries.
- Ensuring quality standards, customer expectations and deadlines are met.
- Making Landing pages for our digital marketing campaign.
